Art Unit 3624
Docket no. 8771.00

1 - 29 (Cancelled)

30. (Currently amended) A self-service financial terminal comprising:

means for receiving a request from a wireless communication device; and

means for dispensing valuable media in response to a request received from a wireless communication device.

31. (Original) A terminal according to claim 30, further comprising means for enabling the terminal to be operable in a first mode in which a user may enter information using a user interface located on the terminal, and in a second mode in which a user may enter information using a portable user interface.

32. (Cancelled)

33. (Currently amended) A self service financial terminal comprising:

a transceiver which receives a request from a wireless communication device; and

a dispenser which dispenses valuable media in response to a request received from a wireless communication device.

34. (Currently amended) A method comprising:
receiving at a self-service financial terminal a request
from a wireless communication device; and
dispensing at the self-service terminal valuable media
in response to a request received from a wireless
communication device.

35. (Previously presented) A method according to claim 34,
further comprising enabling the terminal to be operable in a first
mode in which a user may enter information using a user interface
located on the terminal, and in a second mode in which a user may
enter information using a portable user interface.

36. (New) Self-service terminal according to claim 30,
wherein the terminal presents no keypad to a customer.

37. (New) Self-service terminal according to claim 30,
wherein the terminal presents no video display to a customer.

38. (New) Self-service terminal according to claim 36,
wherein all communication between the portable communication device
and the terminal passes through a wireless communication port on
the terminal.
